

# Clean Touch™

## Automated UV Surface Disinfectant

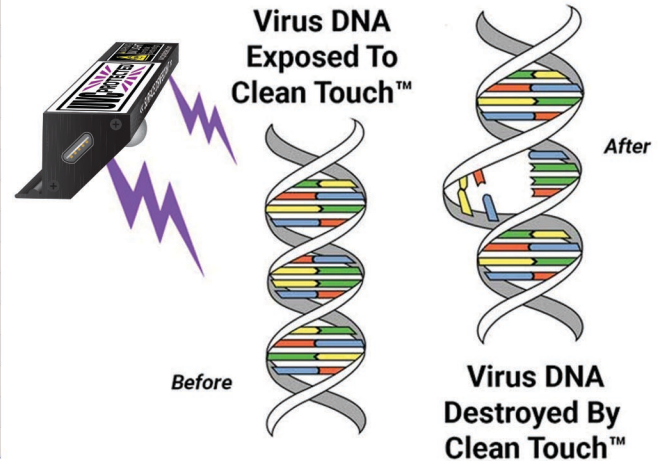

### Disinfects After Every Use

- The Clean Touch™ with its Patent Pending technology, takes the guess work out of disinfecting surfaces quickly and safely after each customer or employee use.
- Automatically destroys viruses and bacteria on keypads and surfaces found on payment terminals, access doors, alarm systems, ATM machines, kiosks, self service areas or any surface in which sterilization is required.
- Combines the latest in ultra violet light technology (UV-C LED) which destroys over 99% of viruses, bacteria, and other harmful pathogens.
- Allows for touch-less and chemical-free cleaning.
- Automatically turns ON to sanitize surface after every use.
- Automatically turns OFF after cleansing cycle completes or when motion is detected.

## SPECIFICATIONS:

Product UPC Code	654690164001
Purpose	Automated ON / OFF surface disinfectant
Measurements (W/L/H)	1"   3"   3/4"
Housing Material	Aluminum
Input Voltage	5V, 7.5V Maximum
Connection Type	Micro USB TYPE B
Power Multi Link	Link and Connect Multiple Units
Chip Type (X2)	UVC + UVA SMD LED 3838, 5-8mw, 50mA,
Chip Encapsulation	Quartz glass
Beam Angle	130°
Min. Dominant Wavelength	UVC 270nm   UVA 395
Max. Dominant Wavelength	UVC 285nm   UVA 405
Min. Operating Temp	-22°F
Max. Operating Temp	140°F
UV-C Safety Feature	Infrared Motion Sensing Technology
Warranty	UVC Protected 1 Year Limited Replacement

### Automatically Destroys Viruses & Bacteria Using Motion Sense & UVC LED Technology.

Kills Germs

Automatic

Chemical Free

Fast & Safe
